www.comune.venezia.it

#### Main Criteria

- Compliance with a specified high standard of water quality;
- Water quality information posted at the beach;
- No release of sewage or other waste water on the beach;
- Beach cleaned on a regular basis, with facilities properly maintained;
- Presence of lifeguards or lifesaving equipment;
- Easy access and facilities for disabled people;
- Blue Flag Program Information posted at the beach;
- Good equilibrium between beach activities and nature protection.

You are now visiting an area with beaches that fly the Blue Flag. The Blue Flag is an environmental award, given to communities that make a special effort to keep their beach clean and manage correctly their territory:

- so that you and your family can visit clean and safe environments;
- so that your community maintains a basis for sound development.

#### PET'S BEACH AREA

The City of Venice allocates an area of the beach for dogs and pets, with their owners. This beach is situated at the beginning of the Murazzo and can be reached through Via Pigafetta.

The access is free, please follow the sanitary and hygienic norms and municipal ordinances.

### NATURAL SITES

San Nicolò (Northern Lido), Alberoni (Southern Lido) and Caroman (Pellestrina island) are natural areas protected by European Commission (Natura 2000 network). These are coastal areas of high naturalistic interest, habitat of different species of plants and animals. They are identified as Site of Community Importance (SCIs) and Special Protected Areas (SPAs) according to the Habitat and Bird EU Directives, and provided by Veneto Region's Hunting Plan.

### KENTISH PLOVER'S PROTECTION

Kentish plover (*Charadrius alexandrinus*) is a little protected wading bird nesting along the coast of Venice Lido from march to july. Kentish plover is protected by the EU Bird Directive and his population is decreasing due to the intense tourist enjoyment along the coast. Blue Flag Program rewards municipalities involved in nesting protection.

### SEA TURTLE FIRST AID CENTER

A rescue center for sea turtles is situated in the "Centro di Soggiorno Morosini" at Alberoni. It hosts sea turtles that are often found injured or stranded. Please support us by reporting sightings of this species by calling Oasi WWF Dune Alberoni on +39 3482686472. Info: Natural History Museum of Venice +39 041 2750206 - erpetologia.msn@fmcvenezia.it
